

Solutions for warehouse applications

Gratings and Profile planks
for walkways, mezzanines and racks

Press-locked gratings

Walkways/mezzanine floors

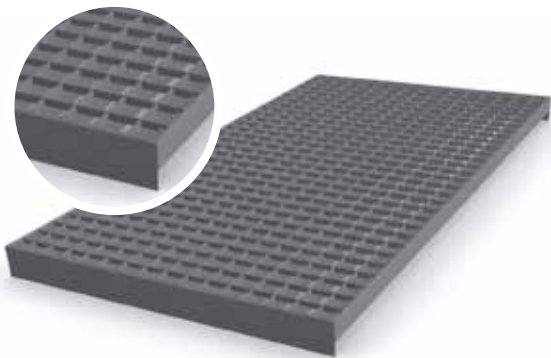

- Smooth surface – trolley movement/storage areas
- Anti-slip surface possible (pedestrian use)
- Different mesh sizes available

11mm mesh for trolley use

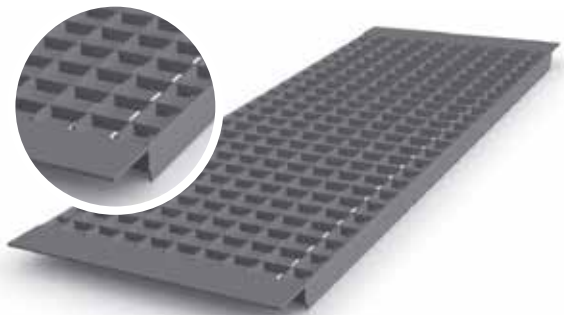

Racking/shelving

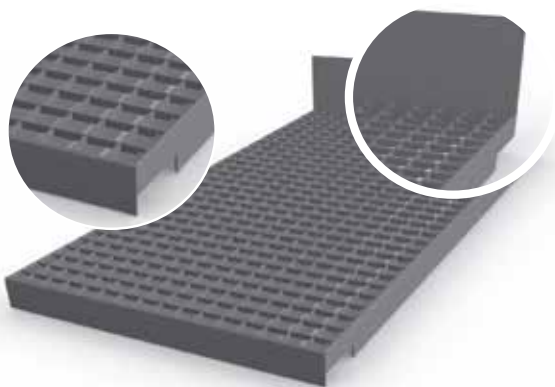

- High load capacity
- Items can be identified from below
- Customized solutions adapted to the specifications
- Fire resistant
- Permeable to light and water (sprinkler system)
- Inserted or on top of the structure

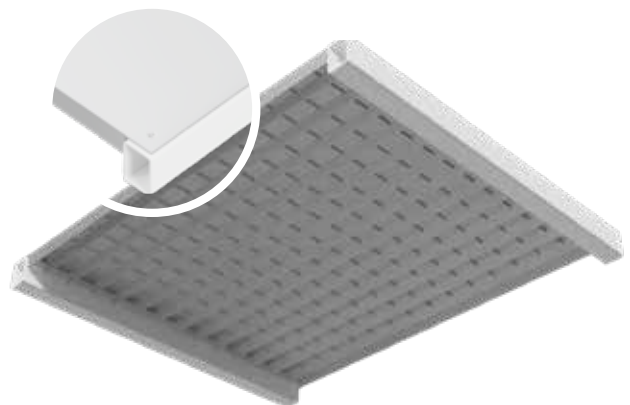

Rack grating, bearing bar with raised banding

Rack grating with Z-shaped profile

Rack grating, notched with push-through protection

Rack grating with steel plate as a heat sink

U-Profile decking

Racking/shelving

- High load capacity
- Light weight
- Fire resistant/sprinkler (water drainage)
- No damage of the goods
- Easy installation
- Hot-dip galvanized or pre-galvanized
- Inlaid or loose-fitting

For cardboard boxes up to 1000 kg UDL

For small packages and cardboard boxes with low weight

For support of an euro-pallet up to 1000 kg (only inlaid)

Profile planking

Walkways/Mezzanines/Racks

- Trolley movement: smooth surface
- Pedestrian: anti slip surface
- Large clear spans possible
- Completely closed or with holes
- Easy installation

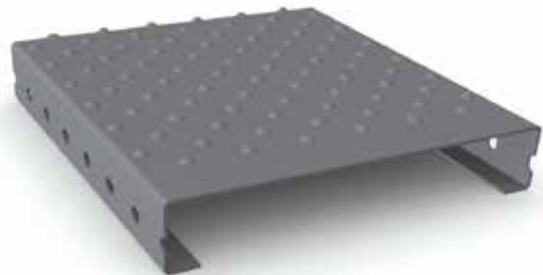

Stepplus 02

This plank combines the advantages of a smooth surface with slotted holes and excellent transverse stiffness.

Formstep 06

This plank is characterised by its very smooth surface with round holes. It has good light permeability, ventilation and drainage properties.

Aderstep G1

Despite its closed surface, this plank type has an anti-slip resistance.
