

MEISER®

Experience the universal uses:
MEISER GFK floor systems

MEISER GFK floor systems

MEISER GFK grilles (glass-fibre reinforced plastic grilles) specially made for use in industrial and public areas in which corrosion resistance is of particular importance. Developed for universal use, they are easily and quickly installed and have a high load tolerance, thus ensuring great safety and comfortable walking.

MEISER GFK floor systems are

- ▶ Economical
- ▶ Very durable
- ▶ Non-slip
- ▶ Heavy duty
- ▶ Resistant to smoke and fire
- ▶ Insulating
- ▶ Available in many colours
- ▶ Easily installed
- ▶ Maintenance-free and long-lived
- ▶ Electrically non-conductive

MEISER GFK floor systems are available in various matrix systems to suit every use:

- ▶ IPR standard – polyester resin for universal use
- ▶ VER exclus – vinyl ester resin for extreme resistance to chemicals
- ▶ PHR exclus fire – phenolic resin for maximum fire resistance

MEISER offers a comprehensive range of GFK floor system products suitable for virtually any use including

- ▶ Platforms
- ▶ Stages
- ▶ Stairs
- ▶ Covers
- ▶ Fences
- ▶ Protective grids
- ▶ Facades

Information on our range is always available from your MEISER GFK team of experts. Mr. Philipp Petry and Mr. Alexander Meixner will be happy to answer any queries you may have and, of course, to draft a non-binding offer tailored to your needs.
